

Images, Cover, MediaText & Galleries (with Lightbox)

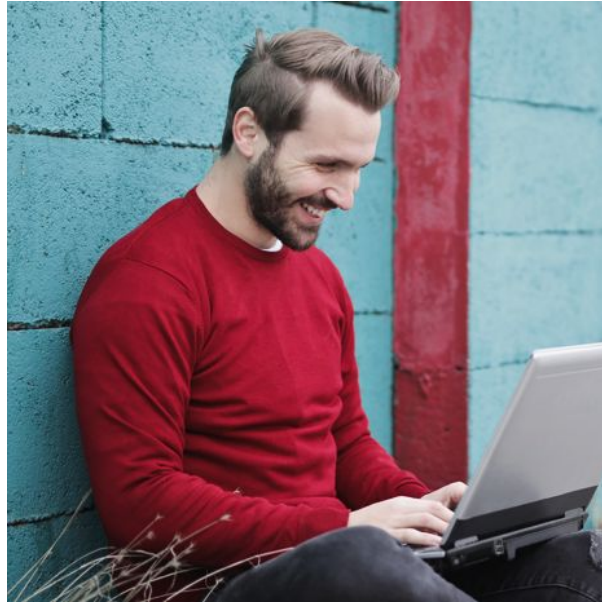

Posted on June 26, 2024 by Editorial Team

Simple Images (links to original images)

These are simple images with default filters and caption options. They can optionally link to their individual image attachment pages. You can also customize the captions to add more context or information about each image. Images are automatically responsive, ensuring they look great on any device.

Click this link to see [Image Alignment](#) in action.

You can even have them open in a lightbox by default (**available in Premium Feature**) like this one:

(oh, in case you didn't notice, we aligned the image to 'Full Width' just so that it looks pretty!)

Galleries with Lightbox (available in Premium)

Galleries are a great way to display collections of images in a clean and engaging format. They can showcase anything from photography to product

displays. Below are some examples of galleries that demonstrate how images can be beautifully organized and presented. Take a look and see how galleries can enhance your visual storytelling.

Clicking on the image opens it in a lightbox by default **(Premium Feature)**

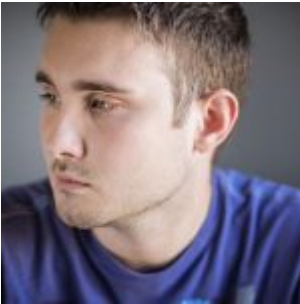

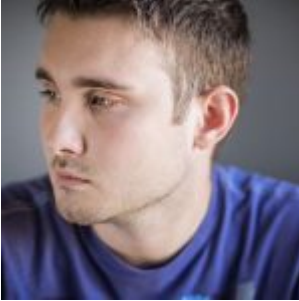

Or maybe a smoother group of circular images.

Circular galleries add a modern and creative touch, making your images stand out. They're perfect for showcasing profile photos, team members, or anything that benefits from a unique shape. Circular image galleries also help break away from traditional layouts, adding variety to your design. With the right spacing and alignment, they create a clean, minimalist look that draws

attention to each individual image.

Links can open in Lightbox as well!

Finally, you can also have image links open in a lightbox **(available in Premium)** like [a link to this image](#). Whats more, you can also open Youtube and Vimeo videos like [a link to this Youtube Video](#)

Cover

A Cover block is a highly versatile block which can be used to create

interesting layouts and patterns. It highlights certain sections of your content and calls attention to important Call to Action buttons. The possibilities are endless.

The logo for NEWS CHANNEL features the word "NEWS" in a bold, dark blue, sans-serif font above the word "CHANNEL" in a similar font. A horizontal blue bar is positioned behind the letters of "CHANNEL".
