International Atomic Energy Agency (IAEA) and the Nuclear Non-Proliferation Treaty (NPT) are the main international instruments for the control of nuclear technology. The IAEA was established in 1957 and has since then been working to promote the peaceful uses of nuclear energy and to prevent the proliferation of nuclear weapons. The NPT is a treaty that aims to prevent the spread of nuclear weapons and to promote the peaceful uses of nuclear energy. It was signed in 1968 and has since then been joined by a large number of countries. The IAEA and the NPT are the main international instruments for the control of nuclear technology.
